

# New Liner Profile Product Launch 31<sup>st</sup> August 2015

As of the 31<sup>st</sup> August 2015 the all new enhanced **N1000L+** Liner will be replacing the original N1000L shallow liner profile.

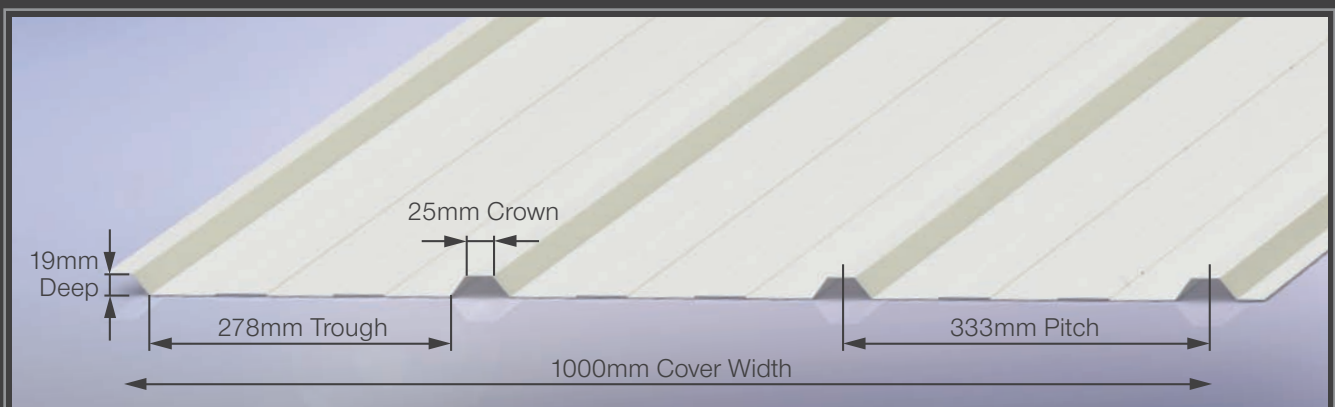

This new liner has improved rigidity, thermal values, acoustic performance and increased fire wall specifications.

Firth Steels' new addition to the PROTEX profile family provides an innovative solution in an ever evolving industry.

## **N1000L+** Available 31<sup>st</sup> August 2015

## **N1000L** Production ends 31<sup>st</sup> August 2015
